

BT MeetMe for Lync Enterprise

Extend the reach of your Microsoft® Lync™ Enterprise service with BT MeetMe audio conferencing

Microsoft Lync is ideal for your basic Presence, instant messaging, web and video services. Now, by integrating with our BT MeetMe audio service, you can extend the reach of your Lync conference even further.

BT MeetMe for Lync Enterprise allows you to work with people outside your business, whether they're on Lync or not, and it also means you can stay in touch with your people while they're out and about, using a mobile or public phone line.

And we can manage the bridge and network capacity of the audio, so you're equipped to cope with the challenges that come with growth, seasonality and travel disruption. You can enjoy consistent service, call flow and support, regardless of your Lync (VoIP) or PSTN connection. You get to experience a high quality, secure and reliable audio conference, as well as taking full advantage of the audio features using the keypad or the in-call control features integrated with Lync.

Lync Enterprise integrates with all forms of our BT MeetMe audio service, including Dolby®. Participants dialling into the Lync call using BT MeetMe with Dolby Voice will benefit from an enhanced call quality that combines voice separation with high quality sound to give a best in class audio conferencing service.

How does it work?

It securely integrates your Lync service with BT MeetMe conferencing capabilities. It means you can:

- **Reach more people** – anyone can join the call, regardless of whether they can access Lync.
- **Call anytime** – the full BT MeetMe service is available every day of the year.
- **Increase productivity** – engage with anyone, no matter where they're located or what internet access they have.
- **Scale when you need it** – BT MeetMe can be used as a back-up or overflow service in case of service failure or high usage.
- **Be supported 24/7** – it comes with BT Conferencing operator assistance; just dial *0 from the keypad for help, anytime.
- **Have expert help** – conferencing specialists can be contacted so that any faults or questions can be resolved quickly and business can carry on as usual.
- **Get everyone on board** – BT MeetMe online training drives a higher rate of awareness and encourages usage across your whole organisation.

When can I use it?

BT MeetMe for Lync Enterprise is perfect when:

- connecting to someone without access to Lync Enterprise
- internet access isn't available
- internet access isn't configured for voice functionality
- the microphone or speakers aren't high quality
- using a mobile phone to connect
- using a computer not equipped for voice
- commuting or travelling.

BT MeetMe for Lync Enterprise highlights

- Access from a fixed or mobile phone from over 55 countries worldwide.
- Easily make use of access numbers and passcodes embedded in Lync Outlook invites.
- Add in participants quickly and easily with integrated dial-out function.
- Simplified, quicker access using a single list of PSTN international dial-in numbers for all regions.
- Enhanced reporting capabilities, with data on participants, duration of calls and the number of calls made.

Why choose BT for Lync Enterprise?

The power of BT and Microsoft combined gives you the support of the leading providers in conferencing and collaboration. Together, we provide a simple way to reach a wider audience by uniting audio and Lync solutions.

BT is at the forefront of innovative conferencing services and solutions, and we're supported by a roadmap which is agnostic to networks and applications; providing greater flexibility to meet your business challenges both now and in the future.
